WATER ANALYSIS SHEET

To collect your sample, use a small water bottle (any brand name water from a convenient store will do, simply empty the contents). Fill at least 8 oz. of water from your tap. Be sure to run the water for about 10 minutes prior to filling as water sitting in pipes for some time can alter the results.

Please print and fill out this form and mail with your sample to:

**PuriTec Water Sample
4035 S. El Capitan Way
Las Vegas, Nevada 89147**

NAME _____
